

# Fish Classroom News

Jan 25, 2018

The children are enjoying being back at school and spending time with their friends! If you walked into the Fish room this month, you would see a lot going on (see below what we are currently doing in the classroom)!

ABC's – please encourage your child to bring in their Share Jar each week. They will have a chance to share the item with their friends and we practice the sound each letter makes.

Finally, thank you for the Christmas gift and goodies! Jen and I used your gift to see *Waitress* at the Aronoff Center. It was fabulous!

## Dramatic Play

Construction Zone!  
Lots of hammering is going on at the work table and the construction workers are busy measuring the room with measuring tapes.

## Author Study

Our author focus is on Jan Thomas. Her books contain speech bubbles. The children have learned that a speech bubble tells the reader who is speaking in the story. You may see your child add speech bubbles to the books they bring home!

## Science

The children are becoming skilled at balancing by stacking cups and attempting to knock them over at the pendulum!

## Math

We are working on recognizing numerals 1-6. The students practice this skill by playing the snowman game with a friend and working on dot-to-dot pictures.
